### *Allowable Subject Matter*

1. Claims 1-6, 9-13, 17-18, 20-21 and 33 are allowed over the prior of record.
2. The following is a statement of reasons for the indication of allowable subject matter:

The closest prior art of record is U.S. Pat No. 5,249,120 to Foley and U.S. Pat No. 5,189,606 to Burns et al.

Foley discloses a manufacturing cost estimating method of estimating the cost of manufacturing a material from an initial state to a final state. Foley disclose the cost estimation method takes into account various labor costs, overhead costs, and costs of various steps of operations between the different materials in the initial state and the product in the final state.

Burns et al disclose a cost estimation system for construction that takes into account of cost of material and labor in different region areas.

As per claims 1, 10, 17, 18, 20 and 21, the closest prior art of record taken either individually or in combination with other prior art of record fails to teach or suggest that when implementing the cost estimation method, retrieve the costs associated with a predetermined standard manufacturing steps which are used when the user only specifies a portion of the manufacturing steps. Claims 2-6, 9 and 33 depend upon claim 1 and have all the limitations of claim 1 and are allowable for the same reason. Claims
